House of Packaging  
**Machines & Materials**

We proud to introduce ourselves as one of the leading manufacturer, supplier holding a field of expertise in manufacturing best quality packing machines & packing materials. We are one of the trusted manufacturer and supplier of variety of packing machines & packing materials used in food, cosmetic, pharmaceutical industries and other commercial applications. All our products are capable to cater commercial as well as technical demands.

SABENA

## Hand / Foot Sealer

### Features:

Suitable for packing granules, liquids, powders, etc.  
Hand Sealers Available at 8", 10", 12", 16", 20", 24"  
(Hand Sealing width 1.5mm / 3mm / 5mm)  
Foot Sealers Available at 12", 16", 20", 24", 40"  
(Foot Sealers width 3mm / 5mm)  
Heating element Flat / round.  
Adjustable electronic timer.  
Audio and visual sealing indicators.  
Ideal for use in shops and bakeries.  
Models Available in Impulse & Hot Bar Series

### Applications:

IMPULSE : LD, HM, PP, LDPE, Multi Layer Laminated Pouches films etc.,  
HOT BAR : Multi Layer Laminated Pouches only

Hand Sealer  
(Impulse)

Hand Sealer  
(Hot Bar)

Foot Sealer

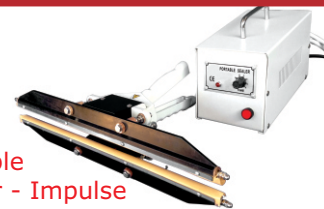

Table Top Sealer

### Features:

Table Top Sealer Sealer is suitable for sealing All type of Heat Sealable materials. Machine can be switched to manual or auto mode, in manual mode you can press the foot switch to make the sealing, in auto mode, you can set a cycle time to make the machine automatic sealing.

## Portable Sealer / Tong Sealer

Portable  
Sealer - Impulse

Portable  
Sealer - Hot Bar

### Features:

This Portable hand held type Sealer is ruggedly constructed and it is light weight.  
This Machine can be taken to the object to be sealed. Sealing possible at different angles. Ideal for sealing / closing of polythene bags and sacks, for packing of bulky machinery, control cabinets, Pallets, etc.

### Applications :

IMPULSE : LD, HM, PP, LDPE, Multi Layer Laminated Pouches films etc.,  
HOT BAR : Multi Layer Laminated Pouches only

## Band Sealer

Horizontal Band Sealer

Vertical Band Sealer

Heavy Duty Band Sealer

Suitable for packing powders, granules, liquids, etc., • Time saving

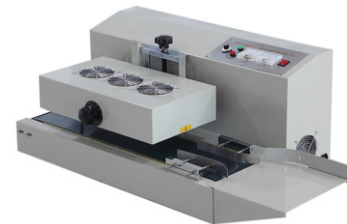

Available at horizontal, vertical & heavy duty models. • Constant temperature control and stepless speed regulation

Nitrogen gas flushing model also available.

## Foil Sealer

Manual Induction sealer

Continuous Induction sealer

Induction Sealer, High Quality sealing device for Induction aluminum foils to plastic & glass bottles, leak proof sealing for better shelf life, easy to Operate, ideal for small & large production. This induction sealer is compact and versatile. It is suitable for use on various types of bottles and cap sizes.

### Features:

Easy setup and simple operation High reliability  
Self-test circuitry to stabilize frequency Over-current and over-voltage protection to ensure smooth operation

### Application:

PE, PET, PP, PVC, ABS, glass bottle etc.  
(Metal bottle and metal lid are unsuitable)

Foil Sealer

This machine is a manual hand operated machine. It is used for sealing the mouth of the containers like PP, LD, HDPE, PET, etc using aluminium foil sheet.

This machine seals the containers by heat seal method.

## Shrink Packaging Machine

Hot Air Gun

Heavy Duty - Hot Air Gun

Multipurpose Hot air gun.  
Suitable for Shrink wrapping, drying, bending PVC pipes, removing paints, etc.  
Range of models available for different applications  
Accessories available for different applications.

Semi- Automatic L - Sealer

Semiautomatic L-seal cutting machine can convey the products automatically into shrink tunnel through conveying belt for shrink packaging after sealing & cutting.  
can Equipped with shrink tunnel to reach higher working capacity.  
1. Semiautomatic L-seal cutting machine is suitable for shrink packing electronic products, hardware, software, foodstuff, printing, pharmacy, floor, ceramics etc.  
2. Applied to all kinds of packing materials, such as PVC, POF, PP.

## Shrink Packaging Machine

Auto L Type Sealer is the procedure of plastic film packing from feeding, sealing, shrinking runs automatically. It fits for automatic production line.  
Auto L Type Sealer can be used with various kinds of films such as PP, PE, and POF film.  
Vertical photoelectric cell or horizontal photoelectric cell are available according to size of product.  
Easy operating. Only need to load product to in-feed conveyor.  
Auto L Type Sealer is a energy saving product and works efficiently.  
Easy maintenance and operation.  
Auto scrap film beautifies the working environment. It can also be taken apart from the collector easily.  
No smoke produced when sealing or cutting.  
The conveyor width for auto L-type sealer can be adjusted fast and easily pack different size of products.

Automatic L Sealer

## Shrink Packaging Machine

Shrink Chamber

shrink chamber combo enables efficient and consistent package sealing time and time again. Great for PVC shrink wrap and polyolefin shrink wrap films. Once film is dispensed and products are placed in the film, the combo system does the rest. Simply close the lid and allow the shrink system to seal and shrink in one motion.

Web Sealer

Sleeve Wrapper wraps products of different shapes: square, round shape, flap shape. It can work with or without a tray. It can be combined with a shrink packaging machine for the final wrapping process. Packing size can be easily adjusted. Sleeve Sealer is light, space saving and convenient.

## Shrink Packaging Machine

Table Top Shrink Tunnel

Our Shrink Wrapping Machines. High on performance, these are qualitatively superior and offer optimum serviceability for longer period of time.

### Features:

- Various sizes available depending on the size of the product.
- Time Saving
- Variable speed controller
- Separate controls for heater & Cooler fan.
- Gives perfect finishing
- Can be attached with L- sealer

Shrink Tunnel

## Shrink Packaging Machine

LDPE Shrink Tunnel

PE Shrink Tunnel can be combined with the L-Sealer machines or over wrapping machines. This model is available in stainless steel.

PE Shrink Packaging Machine adopts heat circulating type tunnel.

The cooling equipment is installed on the exit of shrink packaging machine in order to accomplish the perfect shrinking effect.

Special designed for PE film packaging.

Auto temperature control can be adjusted.

The conveyor speed of PE Shrink Packaging Machine is adjustable.

## Strapping Machine

Semi-Automatic Strapping

Automatic Strapping

Strapping machines that are known for its durability, reliability and performance.

It requires very low maintenance cost making them the most cost effective strapping machines.

Our strapping machines are innovative, rugged, simple and reliable.

Our box strapping machines are simple to operate and can pack the product in very less time and without any trouble.

Energy Saving (Auto switch off if not used for 30 sec)

High Speed, Time Saving

Strapping speed @1.5 sec/strap

No need to wait for heater.. Just plug and use immediately.

Maintenance Free

Pneumatic PET Strap

Pneumatic tool is applicable to neutral packaging and widely used in the export enterprises of Iron, Color metal, textile, household electric appliance, foodstuff and daily merchandise. It adopts PET tape to finish a strap in a high speed once. This PET tape is high-tension, environmental -protection and no-pollution and can be used to replace steel tape.

## Carton Sealing Machine

Semi Automatic  
Carton Sealer (Mechanical)

Semiautomatic carton sealer is mainly used to seal cartons, which can operate alone and can also be equipped into production line.

**Application:** The machine is used in the fields of domestic electrical appliance, foodstuffs, general merchandise, medicine and chemical industries.

Note :

1. Mechanical Carton Sealer is suitable for circumstance where the size of cartons does not change frequently, which especially fits for continuous sealing of cartons in the same size.
2. Pneumatic carton sealer is mainly used to seal cartons, which can operate alone and also can be equipped into production line.

Semi Automatic  
Carton Sealer (Pneumatic)

## Vacuum Packaging

Mini Vacuum Sealer that we provide is for manual vacuum sampling of 40 to 50 pouches per day with sealing. Vacuuming revolutionizes the way you store food & Seal products which increases shelf life of perishables, retains aroma & prevents breakages.

**Features:**

- Long life
- Top quality
- Low energy required

Mini Vacuum Sealer

Tabel Top

Single Chamber

- Vacuum Sealer removes all the air from the pouch before sealing to ensure airtight seal. The products after packing can be prevented from oxidation, going mould, insects or getting damp, thus can be kept for longer time.

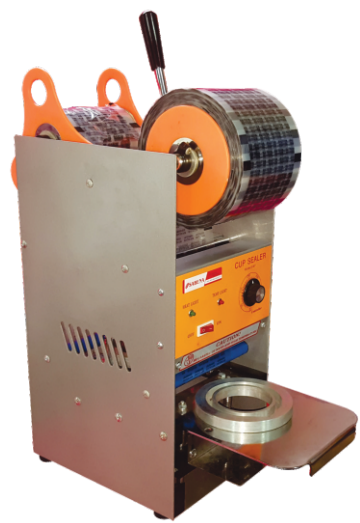

- Suitable for food items, metal items, etc.
- Machines offered under this series:

- Single Chamber
- Double Chamber
- Mini Vacuum

# Cup Sealer

Manual Cup Sealer

Semi Auto Cup Sealer (Lever)

Semi Automatic Cup Sealer (Lever)

**Features:** 1. Beautiful in design, small in structure, light in weight, durable. [2]. It is suitable for various containers made of EPS, PS, PP etc.

**Application:** Cup sealer is widely used in industries, such as Food, Beverage of pearl Milk Tea, Bubble Tea, Fruit, Soybean Milk, Soup of Lunch Box, Water Cup Etc.

Semi Automatic Cup Sealer (Motor)

Automatic Cup Sealer

**Description:** Round Cup / Container Sealer is Best Suitable for Sealing Round Container Mainly used for Liquid, Semi Liquid & Dry Product such as Rasgullas, Gravy Items, Soup, Juices, Curd & Drinks Etc., Available Container Sizes • 69 • 74 • 80 • 95 • 123mm

## Tray Sealers

Manual Meals  
Tray Sealer

### Description:

Meal Tray Sealer are specially Design to Seal Meal Trays to Takeaway Foods (Thali) in the Machine Each Portion of Trays are Sealed Individually so that there is no leakage in between two separate portions  
Available Tray Sizes  
1200 x 300 8 / 5 Portion  
Meal Tray

Note : These machine are designed to Seals the Tray and Container of Fixed mouth size as depth of the Container / Tray Can be Varied for Different Volume in the Same Mouth Size

Manual Tray Sealer

Manual Tray Sealer

### Description:

Rectangle Tray Sealer are specially made to seal rectangle trays manly used to pack Sohan Papri, Biscuits, Namkeens Snacks, Frozen Foods, etc  
Available Tray Sizes • 140 x 190 mm • 100 x 140 mm • 175 x 230 mm

## Tray Sealers

Semi Automatic  
Tray Sealer (Lever)

Semi Automatic  
Tray Sealer (Lever)

Automatic  
Tray Sealer

Note : These machine are designed to Seals the Tray and Container of Fixed mouth size as depth of the Container / Tray Can be Varied for Different Volume in the Same Mouth Size

Useful For Restaurants, Shops, Supermarkets & Factories

### Best used for :

Prepared food & drinks for take-away.  
Microwaveable meals, moisture resistant.  
Pre-packing of traditional sweets like Rasgulla, Gulabjamun, Sohan, Papri, Burfi, etc.  
Frozen foods : Chicken, Meats Kabab, Curry and Cocktail, Snacks etc.  
Display Packing for Cookies, Namkeen, Confectionaries and Dry Fruits.  
Drinks : Water, Juices, Beverages, Milk Shakes, Lassi etc.

### Excellent Features

[1] Low cost investment & maintenance. [2] Small machine size and light weight. [3] Quickly packaging operation. [4] Capable of sealing all material, PP, PE, EASY OPEN No spoils, no dripping. Maintain the freshness of your product. [5] Upgrades your product's image with colourful, appealing logo.

## Fully Automatic Cup Sealer

Liner Type

### Features:

This machine is made of stainless steel with easy equipment, it has been long tested and its performance gained a very high reputation from our clients because of its easy operation and smooth work in low failure rate. We can produce the machine under the customer's special requirements. Machine suitable for beverage, such as milk, fruit juice, mineral water. And it can automatically do cup setting, filling, photoelectric pattern proofread, sealing, printing date, cutting and discharging.

With Photo Cell  
Automatic drop cup sets

## Tray Wrapping Machine

Cling film tray wrapping sealer adopts electronic constant temperature control for cutting and Sealing. It is widely used to pack cling film on food, vegetable for retaining freshness, which is an ideal equipment for supermarket, noshery and buffet.

## Disposables

we have variety of disposable food containers in seal able and non sealable types, our food containers are made up of virgin quality raw materials, 100% food grade, microwave able.

Best used for : Prepared food & drinks for take-away.

Microwaveable meals, moisture resistant. Pre-packing of traditional sweets like Rasgulla, Gulabjamun, Sohan, Papri, Burfi, etc.

Frozen foods : Chicken, Meats Kabab, Curry and Cocktail, Snacks etc.

Display Packing for Cookies, Namkeen, Confectionaries and Dry Fruits.

Drinks : Water, Juices, Beverages, Milk Shakes, Lassi etc.

### features of sealable containers :

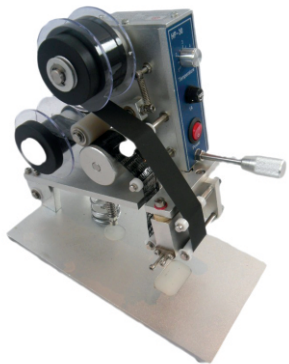

No leakages Increase the self life of the product, Maintains freshness & adds value to the products.

# Disposables

## Batch Coders

Manual Ribbon Coder

**Description:** Manual ribbon coding machine can print on thin cardboard, paper sheet, leather, plastic film, aluminum foil etc.

### Features:

1. Adopt color ribbon printing, characterized by high definition, instant dry, non stickiness.
2. Adopt constant temperature with adjustable temperature, suitable for color ribbon made from different kinds of materials.
3. Operated manually, which is very easy.

Motorizes Ink Coder

### Features:

Suitable for all manual & automatic coding on various packing.

Compact design makes it easy to install where space is limited.

Motorized intermittent reciprocal contact coder so no requirement of Air supply.

It can also be installed in various positions according to the design of parental machine.

It runs by foot switch, proximity switch & in-built timer operation.

It gives bigger printing area up to 50 mm and so can easily have 4-6 lines of printing on various packed goods.

## Batch Coders

Solid Ink Coder

Solid-ink coding machine fit for printing label on paper, thin cardboard, plastic film and aluminum foil. Adopt solid-ink coding, characterized by high definition, instant printing & instant dry, various colors selectable and strong adhesion.

### Features:

1. Adopt photoelectric mechanism technology, automatic temperature control, auto counting, adjustable print position.
2. The printing roller equipped to the machine can be used for both R arrange and T arrange of types.
3. Types available in sizes of 2mm, 2.5mm, 3mm are available as option.
4. Work efficiently and automatically at high speed, up to 300pcs per minute.

Handy Coder

### Features:

Prints on Corrugated Cartons, Wooden Cases, Sacks, Drums, Sheets, Plywood, Decorative Laminates etc.

Available for Porous or Non-Porous surfaces.

Auto-Reset after every print.

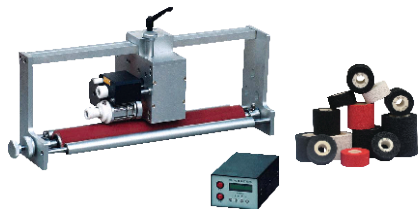

Mini-Marker G-50 can print on 50mm x 325mm area with 10mm (5 lines) or 14mm (3 lines) push fit stereo

Handy-Marker G-96 can print on 96mm x 325mm area with 14mm (6lines) or 25mm (3 lines) push fit stereo.

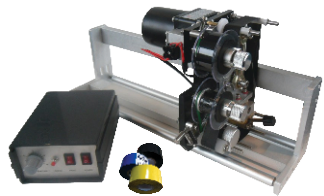

Auto Carton Coder

## Automatic Contact Batch Coders

Automatic Solid-Ink Coding Machine

Automatic Ribbon Coding Machine

**Description:** Automatic Solid-ink coding machine / Automatic Ribbon Coding Machine can be used to match with vertical or horizontal automatic packaging machine for Batch coding.

### Features:

1. It adopts solid ink / Ribbon for coding, characterized by high definition, instant printing & instant dry, strong adhesion and clean without stickiness.
2. Automatic Solid-Ink Coding Machine Can print 11 lines with 10 characters on each line at most.
3. Automatic Ribbon Coding Print 3 lines with 15 characters in each line at most
4. The coding position controlled by photocell is adjustable, sensitive and accurate.

## On-Line Contact Coder

Ready-made SS attachment to FFS Machines Packaging Liquid food items or Confectionary.

Friction drive without electrical or pneumatic connection

Continuous printing on film roll or film with guaranteed one full matter on each pouch.

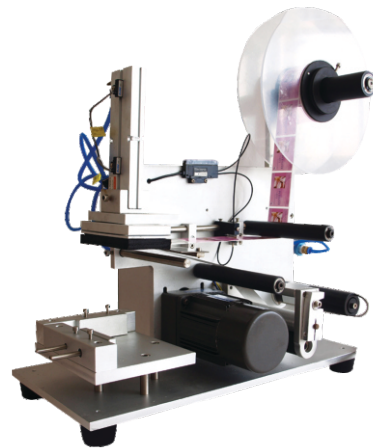

Self-adjusting Clamp for 1st to last pouch coding.

Available large print area of 25mm x 220mm allows even Greetings, Free Schemes etc.

Enclosed synthetic Ink-Roller with adjustable Ink-Release ensures at least 1/2 shift uninterrupted operation.

Choice of quality of paste able Nylo or convenience of press-fit Grooved letters with plain or Dot-Matrix fonts

## Labeling Machine

Flat Surface Labeling Machine

### Feature:

1. Suitable for labeling all objects with flat surface
2. Composed by main body, sending paper, receiving paper, bottle orientation etc parts.
3. Putting the bottle to orientation part by manual and fix the bottle; pressing the off-on switch;
4. small size labeling machine, very easy to operate

### Application:

- 1) labeling plane surfaces such as boxes, bottles, jars, cans, etc
- 2) Widely used in cosmetic, drinks, chemical, medical, food industry etc, which can highly improve productivity and product quality.

Round Surface Labeling Machine

### Features:

Bottle Labelers enable the user to label all kinds of cylindrical objects  
High accuracy and high speed, dispensing & labeling automatically

## Filling Machines

Liquid Piston fillers are designed for filling products at any kinds of liquid.

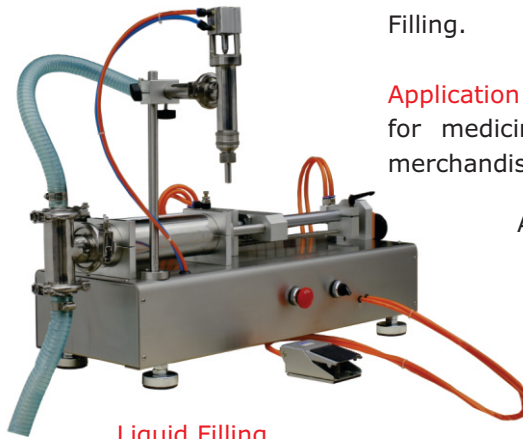

Available in Single Head Filling & Double Filling.

**Application:** Liquid Piston filler is best suited for medicine, chemistry, lube and daily merchandise etc.

Available Filling Range

10- 100ml,  
50-500ml,  
100-1000ml,  
500-2500 ml

Model Available in  
Single Head Filling & Double Filling.

Liquid Filling

Available Filling Range

10- 100ml,  
50-500ml,  
100-1000ml,  
500-2500 ml

Paste Filling

Paste Piston fillers are designed for filling products at any kinds of viscosity product.

**Application:** Paste Piston filler is best suited for medicine, chemistry, lube and daily merchandise etc.

## Filling Machines

Semi-auto granule with measuring cups / Digital Weigher fills the products by the adjustable volumetric cups / digital weigher.

Used in food, hardware, salt, chicken, rice seeds, pesticides, fertilizers, veterinary medicine, feed premix, additives, detergent powder, and other granular, powder quantitative packaging materials.

Semi-Auto Granule & Powder Filler

## Ink Jet Printer Conveyor

**Features:**

1. An assistant device for inkjet printers
2. Compact design, small size, easy to remove
3. Imitate the production line, suitable for small-scale production
4. The running speed is adjust to by the adjusting knob
5. Uses stainless steel support and rubber belt
6. Conveyor Size: 1500mm X 300mm
7. Speed 20mtrs Per Minutes

## Tube Sealing Machine

Semi- Automatic Tube Sealing Machine

### Description:

This ultrasonic tube sealing machine is applicable for sealing the plastic cylinder-shaped hose, such as toothpaste, cosmetics, beverage, jams, ointment etc. It also can cut the extra plastic tube

## Stretch Wrap Machine

Stretch Wrap Machine

Stretch Wrap Tool

### Description:

Mini stretch wrapper is specially designed for wrapping small goods or products without pallet. it is used in cloth industry, yarn industry or food industry.

**features:** Control Features, Cycle pause capability, Pneumatic top plate, Heavy duty chain lift, clam and safety, Top platen to press the top of the load, Film Delivery System, Film delivery variable speed by separate AC Drive Motor, Film dancer-bar with variable speed output.

## Packing Materials

Aluminum Foil Rolls

BOPP Film

We provide these rolls in various colors, sizes and thicknesses for our clients to choose from. Offered with different film combinations, our laminated rolls are designed using rotogravure printing process that enhances their appearance. They are widely preferred for their utility in packaging food products and milk based products.

Aluminium foils & Induction Wad Foils

We have the wide range of Heat Sealing & induction sealing wads for PET, HDPE, LD, PP, & glass bottles. According to the customers' demand it can be printed.

# Packing Materials

Stand Up Pouches

We offer Stand Up Pouches in an assortment of sizes, styles and colors - Standard Stand Up Pouches in clear, plain solid colors, and one sided clear/one sided color.

Metallized Stand Up Bags for the shiny/glossy look and rounded corners.  
Windowed Stand Up Pouches for a solid color look providing a sneak peek of what's inside.

# Packing Materials

PVC Shrink Labels

PVC Shrink films (Pouches) are available at various sizes Suitable for packing & sealing bottle lids, chemicals, pharmaceutical, toys, auto parts, stationeries, etc., Nice looking, clear & glossy Eco-Friendly & recyclable.

Polyolefin (POF) Shrink Film are non-toxic and non-smelly. damp-proof and anti-static. It is suitable for automatic or semi-automatic shrinking machines.

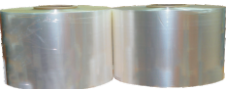

We do PVC and POF shrink pouches against order

PVC Shrink Pouches

PVC Shrink Tubes

Polyolefin (POF) Shrink Film

## Capping Machine

Manual Capping Machine

Capping Machine

Metal Cap Locking Machine is Applied to Seal, Thread metal burglar-proof caps, zip-top caps, aluminum sealed caps and nozzle caps which are made of glass, plastic and PE material in plants of beverage, wine, chemistry industry, medicine and cosmetics etc;

Plastic Cap Locking machine is suitable for cap screwing production of various plastic burglar-proof caps, which is widely used in plants of beverage, wine, chemistry industry and medicine

## Pad Printer

Pad Printer

### Applications :

Print production date, lot number, period of valid, batch Number, barcode, pattern in industries of food, tin, drinks, cosmetic, electronic equipment, pharmacy etc.

The small pad printing machine is suited to print notes and signs like production date, lot number and simple design, logo, trademark, symbols on various kinds of bottles, jugs, cups or boxes based on every type of materials With its good printing effect and low printing cost.

## Batch Coders

Manual Batch Coder

Price Labeler

Manual Batch are Self-Inking, Contact-Printers Designed to code Variable Information B.No. : Mfg Dt. : M.R.P. : Best Before : Logo : Greetings : etc... Simultaneously in one stroke with indelible ink.

## Bar Code Label & TTR Ribbons

we are supplying best quality Bar Code labels and TTR Ribbons in various sizes.
